Please Note

The State Library of Massachusetts is the official depository for Massachusetts state agency publications. This checklist provides a listing of those publications received at the library during the 1998 calendar year.

Newsletters and serials with a frequency greater than quarterly are not included in this list but are listed separately after the index for informational purposes and are available through interlibrary loan.

Document Access

The State Library maintains a system of state document depository libraries in order to provide access to state agency publications. The following libraries serve as document depositories: The Boston Public Library, Springfield City Library, Worcester Public Library, and the Library at the University of Massachusetts Amherst. Documents listed in this checklist may be viewed at these libraries; as well as at the State Library. In addition to the state depositories, the documents are also sent to the Library of Congress. The State Library's catalog, ca. 1974 to the present, can be accessed via the Internet. Telnet to site.cwmars.mass.edu and access file #116. The Library can be reached through the Internet at the following address: <http://www.state.ma.us/lib>.

Each document listed herein is microfilmed. The number at the end of each entry is the film access number. The State Library holds a microfilm subscription to the CHECKLIST as do many other libraries. For more information regarding this commercial microfilm subscription service, contact Primary Source Media, 12 Lunar Drive, Woodbridge, CT. 06525 (203)397-2600.

Three asterisks (***) have been placed at the beginning of those entries which were not filmed in their entirety because of copyright problems.

There is a keyword index at the end of this checklist for all documents listed herein except for the reports of the Department of the State Auditor. Index references are to the page numbers of this publication.

Please note that the Auditor instituted a new identification system during 1990. The reports are now being identified by the type of audit being done. The code is as follows:

You may also contact the nearest depository library for details. Each state publication is fully cataloged and entered into the OCLC database. Publications are listed here under the agency name as it appears in OCLC and in the State Library's catalog.

Document Ordering Information

The State Library and the document depositories cannot provide readers with personal copies of state agency publications. Those persons who require personal copies of the documents listed here must contact the agencies directly. The full address of each agency is supplied here for this purpose.

Some publications are available through the State Bookstore. An effort has been made to indicate here those items available only from the Bookstore.
